I wish to add my voice to the opinion that the remedy settlement handed to Microsoft was far too weak.

This settlement does not go far enough in preventing Microsoft from continuing to illegally dominate the software industry and squash true innovation from real competition.

I read news every day of companies such as Kodak, RealNetworks, and Lindows, and projects such as Kerberos, Wine, etc. that are being unfairly abused by Microsoft. This has to stop. You have the power to stop Microsoft. Please do something to help my industry.
